

Prosecco Ardenghi streamlines business processes with **SAP Business One® Cloud** hosted by **SAP®**

The Prosecco Ardenghi winery has chosen SAP Business One Cloud to improve and streamline its business processes. SAP Business One has allowed Prosecco Ardenghi to standardize its activities and information to improve the control of the company. Partner, InformEtica, provided its expertise on project implementation and cloud service management.

Before: Challenges and Opportunities

- Looking to improve control of company financials for a strategic vision of the business
- Needed an international ERP to increase overseas sales
- Aimed to reduce delivery times to customers
- Needed a cloud solution for a rapid implementation

Why SAP & InformEtica Consulting

- SAP is a recognized leader and provides stable infrastructure for cloud hosting
- InformEtica Consulting's expertise in SAP Business One implementation projects supported the wider efforts towards digital transformation

After: Value-Driven Results

- Low TCO (no hardware, no IT staff, low expenses)
- Detailed reporting of the company's information and its resources
- Standardization of the company's processes

ITALIAN PASSION THAT EXCITES

SAP Business One Cloud has allowed us control over the management and coordination of all the company processes without additional costs in infrastructure or servers”.

Mattia Ardenghi, CEO, Ardenghi Srl

Faster

Quick implementation with a Cloud solution

Better

Improved control of information and cost reduction in resources and servers
