

# Sverital: reduction of working times thanks to SAP Business One®

Sverital is a partner which finds solutions for the most demanding manufacturing problems, selecting companies and products on the global market that stand out for their quality. These products have been combined with the knowledge on the applications that are shared with customers. Today the Sverital organization is present on the market with over 25 companies represented, with a network of technicians and salespeople, and with an efficient assistance service for each of the products distributed. Sverital has relied on SAP Business One and InformEtica Consulting to have a modern business process management that allows it to grow and have a vision towards the future.

## Challenges and opportunities

- Replace an old system that did not cover all the business needs in managing the different products and appliances
- Need for a modern ERP platform for greater process automation
- Project Manufacturing

## Why SAP and InformEtica

- SAP Business One is a guarantee on the market, it is modern and allows you to grow.
- InformEtica is a partner that has convinced us from the beginning, with proposals tailored to our needs.
- With InformEtica we have carried out joint work to obtain the best implementation for the company and in just 2 months we went live.
- Support from InformEtica is always quick and efficient.

## «Value- Driven» Results

- Relationship Map is a very intuitive tool for recovering and tracing data and information
- Work has been speeded up by managing the warehouse picking lists.
- More precise and on-time cost accounting
- We give the image of a structured and reliable company that gives greater guarantees to customers.
- Real-time reporting and analysis.
- Smart working and faster work with SAP Business One HANA.

**“SAP Business One is an excellent product that has confirmed our expectations and InformEtica is a competent, proactive partner always available to our requests”.**
