ABOUT US

Since 2005 InformEtica Consulting is an Italian company that has been active in the Information technology and innovation with SAP Business One.

InformEtica Consulting has strong competence and experience in ERP, and it has invested developing add-ons integrated to SAP Business One.

These solutions have helped companies to become more competitive in an increasingly demanding and evolving market.

InformEtica Consulting and its partners help small and medium sized companies operating in any sector, especially manufacturing, automotive, mechanical, food and service in their innovative and technological evolution.

The add-ons developed and/or distributed by InformEtica Consulting have reached foreign market thanks to international partnership that are growing together with the reference markets.

InformEtica Consulting was the first Italian company to be SAP Gold Partner.

For InformEtica Consulting the implementation of the SAP Business One solution dedicated to SMEs was a strategic choice, and seen as a winner since the very beginning
